TECHNOLOGIES

Experienced Team • Trusted Partner • Innovative Solutions

TAX COLLECTION SIMPLIFIED

Aumentum Tax gives you a complete range of property tax software tools, including levy management, billing, collection, cashiering, and special assessments. Aumentum Tax meets the tax revenue management challenges you face every day, from legislative and technology changes to sharing data with the public and with other government offices.

Integrated Components

Easy-to-use and configure, our browser-based Aumentum Tax system gives you a complete range of tax tools including levy management, billing, collection, cashiering, and special assessments. It maintains unlimited tax years and also automates settlements, balances and roll-overs. And with immediate access to information and an intuitive user interface, your staff will be able to provide a higher level of taxpayer service.

Tax Billing & Collection

Aumentum Tax Billing & Collection includes the Billing Engine, Cashiering and Accounts Receivable modules. The Aumentum Billing Engine formats and produces property tax bills, business licenses, motor vehicle documents, and other bills. The Aumentum Cashiering module provides user and batch processes to calculate appropriate interest, penalties and fees and to collect and record payments in real time over the counter or through remote cashiering devices. The Accounts Receivable module is the repository for all charges, payments and credits. It calculates late payment interest, penalties and fees.

Assessment Administration

Assessment Administration handles the most complex property assessment rules – it maintains the property inventory and valuation data used to determine assessed values for the assessment roll. These functions include a calculation engine, capping and triggering of automatic corrections. Aumentum's Assessment Administration provides the ability to configure, track and calculate any number of exemptions and preferential assessments.

Levy Management

Levy Management is responsible for ensuring all appropriate taxes are applied to assessments. Levy Management includes tools for the maintenance of tax entities including Tax Authorities, Tax Authority Groups (Millage Codes) and Tax Authority Funds as well as configuration settings for tax calculations (including processing corrections, transferring tax bills and tax estimation). Levy Management performs the primary tax calculations as well as secondary tax calculations, which includes, for example, tax deductions and credits.

Records

Records provides a single data entry source delivering time savings and increased data accuracy to your jurisdiction. It is the core component of every Aumentum installation. Records provides a complete inventory of the parcels, filings, business revenue or motor vehicles along with a list of the legal parties who have an interest in the inventory.

Delinquents

Delinquents determines what bills are delinquent, automatically calculates additional interest, penalties, and fees, and facilitates the creation of notices. Includes write-off functionality, payment plans, and has a bankruptcy program that allows for creation of the filing.

Tax Highlights

Part of our government revenue management suite, Aumentum Tax provides you easy-to-use tools for handling tax related functions—such as managing real and personal property taxes, mobile homes, mineral, motor vehicle and special assessments. It also provides you with user-defined tax units and rate tables; tracks property splits, combinations and transfers, and allows comprehensive searches and inquiries. Plus, it automates delinquencies, tax sales, and interest and penalty calculations.

Information Center

Show aggregated information from all offices, reducing workload on staff, and empowering customer service representatives without the need to pass the customer between offices.

GIS Integration

Aumentum GeoAnalyst fully integrates with Esri's ArcGIS Server, so you can use spatial tools to analyze data more effectively.

Unlimited Event Log

Document the history of every event and transaction associated with a specific property.

Executive Dashboard

Review up-to-date visual data of office and staff activities, collected in real-time by location, source, service and more.

Special Assessments

Create, maintain, and calculate amounts for special assessment districts and projects – including amortization over many years.

Tax Sale

Tax Sale facilitates all the activities leading up to and including the auction of liens or the auction of the property itself due to severe delinquency.

Business Revenue

Our comprehensive, automated Business Revenue solution includes Business Tax, Trust Tax or self-reporting taxes, as well as Cannabis. Business Revenue has a complete import and discovery/preview tool for accepting data from external sources.

Distribution

Calculates tax revenue due to taxing authorities for a time period based on amounts levied and monies collected. This includes the ability to calculate withholding commissions from disbursements to agencies and producing disbursement records.

Partner with Aumentum Technologies

Aumentum Technologies designs, develops, markets and supports a family of tax, valuation and records management solutions for county, city and township governments. For five decades our experienced team has focused on developing and delivering state-of-the-art software to our government customers. Through thousands of installations and deployments around the world, our customers have experienced the benefits of effective property administration, valuation, taxation and document recording for their constituents.

Experienced

We've powered over 1,000 government offices with reliable, innovative solutions. With over 3,000 years of combined experience in collective software development, our staff developed the most in-depth tax solution available today.

We're dedicated to continually improving our products with your feedback. Through our user conferences, ongoing training, and innovation labs, we've heard your feedback about how to make our software work for you.

Innovative

Our team of accomplished professionals develops the highest quality software products on the most modern and scalable technology platform.

We put our expertise to work for our customers across the country to help them better serve their constituents.

Customer Testimonial

"Before Aumentum, our staff would spend three weeks in the process of exporting and printing tax bills. We've now shortened that time by 66 percent, with the process taking only one week."

Laurie Thomas

**Chief Deputy Treasurer
Kootenai County, Idaho**
